My signature acknowledges that I have read and understand the following policies regarding research involving human or animal subjects and that I am fully aware of all requirements for successful completion of my degree program, including continuous enrollment.

Research involving human or animal subjects must receive approval from the Institutional Review Board (IRB) or Institutional Animal Care and Use Committee (IACUC) before collection of data may begin. I understand that failure to obtain a copy of the IRB or IACUC approval letter from the project principal investigator will negate the use of that data for my thesis/dissertation or in any form of presentation or publication. (Information on human and animal subjects can be found at http://www.research.vcu.edu/human_research/index.htm and <https://www.vcu.edu/research/acup/index.htm>.)

Approval numbers: IRB _____ IACUC _____ Exempt _____ Not applicable _____

University Graduate Council and Graduate School continuous enrollment policy requires that any student engaged in any form of study at VCU that involves use of university facilities, laboratories/studios, and/or libraries, or who is supervised by or consults regularly with a faculty member concerning graduate work on a project, work of art, thesis or dissertation must register formally for a course while engaged in these activities, including the semester in which the student graduates. Graduate students with approved leaves of absence are exempted from continuous enrollment requirements for the LOA period. **Note: While a LOA temporarily suspends continuous enrollment requirements, it does not extend the time limit for degree completion.**

Graduate students approved for candidacy must register for at least one graduate credit hour at VCU each fall and spring semester until the degree is awarded (including the semester of graduation). Students should consult with their program directors regarding additional enrollment requirements.
